# Edito

To create a collection is to bring together designers, talented makers and exceptional artisans, to design furniture and objects, that beyond their function, reveal a soul.

It is also an opportunity to open up to new perspectives, to different approaches. This season, Marcel Wanders, one of the most talented designers of his generation, offers us Globe Trotter: a collection – like a journey – eclectic and poetic, each piece of which gives the feeling of having been brought back from an imaginary expedition. We are delighted to unveil the first images of this collection, and a range of the new Autumn-Winter 2018 creations. We invite you to discover more in our showrooms and on roche-bobois.com.

Roche Bobois. French Art de Vivre.

## Globe trotter collection | marcel wanders

"This collection is a tribute to the explorer that we all dreamt to be. Travelling is an experience that changes someone and I wanted each piece to evoke this feeling of bringing back a treasure from a distant land."
